

## EFFECTIVE UTILIZATION OF UPLAND BY CULTIVATING REMMUNERATIVE CROP

Mr. Trilochan Mandal of Village: Brozolaltola, Block: Manikchak, West Narayanpur met with the Krishi Vigyan Kendra, Malda for crop planning in his relatively upland situation. Occurrence of flood is the most crucial problem in that area. KVK, Malda advised him to go for remunerative crops and further suggested to cultivate elephant foot yam cv.Gajendra.Mr. Mandal utilizes his 0.13ha of land and cultivated elephant foot yam for seed production. He received the production up to 17.5 qtl. KVK, Malda arranged the seed material from NICRA Project. Out of his production, he sold 12.5 qtl @ Rs.2500/- and earned Rs. 31,250/-. He kept 5.0 qtl. Seed for further multiplication
